# Sept. 28, 2017 Meet Up Conference Call
## "Remini: Features and Benefits"
## Hosted by: Raz Wasserstein

This Meet Up will feature a Short presentation of Remini highlighting the newest features will be presented including:

1.     School Calendar- creating events for the entire school or for each class individually which sends automatic reminders to parents prior the events.
2.     Guideline documentation- It means that for example when a teacher takes a photo or writes a note she could also tag it according to categories you would like. like- age, domain, skills indicators (like social and emotional, Regulates own emotions and behaviors, Manages feelings, Uses adult support to calm self) so in parents teachers meetings they could show a report regarding each child- link to a short clip demonstrating it
3.     Parents-teachers messaging module
4.     Attendance
5.     New version of daily reports
·       If you haven't used it- you will be able to try it yourself!
·       You will ask questions and we will do our best to answer!

Raz Wasserstein has more than 10 years of experience leading large scale software projects as an officer in the Israeli army, in the Prime Minister's office and in the private sector. He is the co-founder of Remini, a startup company, dedicated to foster preschool and family communication in a secure and easy way.

Prior to Remini, Raz worked in several positions in the army and in the Prime Minister's office, where as an officer he was leading software projects. Raz finished his army duties as a Captain in the IDF. Raz Wasserstein also worked in Deutsche Telekom Research Labs and developed a platform for keeping data private and in the hi-tech company Advantech as an advisor and mentor to several software projects. He holds a B. S. and M.S. in Information System Engineering including a master's thesis in information privacy. Raz is 33 years old, is an only child. He suffers from CP that influences his left leg but he enjoys sports and especially playing tennis.
