Group Retirement Plan

Attract **top talent**. Create **loyal and engaged** employees.

“*The LOCO Group Retirement Plan provides great value to our members—custom designed by Dehoney Financial Group with affordable management fees, simple administration and ongoing employee education by experienced financial advisors. I think it’s definitely worth considering if you’re an employer looking to attract and keep top talent.*”

Amy Robinson, LOCO Founder and Co-Executive Director

Reduced management fees compared to most banks and great benefits.

- Wide range of investment options
- Custom built plans for individuals, within the group plan
- Ongoing advice and service
- Simple and seamless administration

WIN-WIN for employers and employees

As an employer, you know the value of a highly-engaged workforce. They are directly linked to your company profits and earnings, and to even greater savings due to lower rates of employee turnover. Current statistics suggest that it costs employers 150% of a lost person’s salary to replace them. The LOCO Business Network Group Retirement Plan is an affordable option to attract top talent, and create loyal and engaged employees.

Business owners also need simple and seamless administration. It begins with plan set-up, access to plan details, reports and transactions, and continues through to our ongoing investment advice. Regular payroll deductions make it easy to manage employee contributions. *It really is that simple.*

Employees can expect a more relaxed and comfortable retirement with an affordable, flexible and expertly managed investment portfolio. Employees can build their own portfolio or have one built to meet their investment requirements. Employees access and manage their accounts online.
